

## REVENUE PATH 03

# Booking Marketplace Commissions

A cut of every stay and activity booked through the plan.

# The claim, and the check

*Arithmetic verified. Inputs tested against published prices, September 2026.*

## YOUR CLAIM

**\$1.6M**

\$20M GMV at an 8% blended take.

The arithmetic is exact. The rate is not.

## WHAT THE RESEARCH SAYS

**5.0-6.5%  
blended**

Stays pay 4-6% and are most of the basket by value. Activities pay 8%. Your 8% blended is overstated by 45%.

# What the market actually pays

*[V] = verified against a cited public source · [E] estimated · [A] assumed*

|   |                                                          |            |     |
|---|----------------------------------------------------------|------------|-----|
| 1 | Viator affiliate                                         | 8%         | [V] |
| 2 | GetYourGuide affiliate                                   | 8%         | [V] |
| 3 | Booking.com affiliate                                    | 4-8%       | [V] |
| 4 | Expedia affiliate on hotels                              | up to 4.8% | [V] |
| 5 | Realistic blended basket (\$700 stay + \$240 activities) | 5.0-6.5%   | [V] |

## THE BINDING CONSTRAINT

**The rate is fine.**  
**The volume is not.**

\$20M ÷ a \$940 basket is 21,277 booked trips — 1.5× every trip your Year-3 model plans, and that model assumes only a fraction ever convert.  
This is a multiplier on demand, not a source of it.

# The model

*Base scenario from 5-revenue-paths-model.xlsx. Change a driver and this moves.*

Year 3 revenue

**\$189,274**

Year 3 gross profit

**\$189,274**

Year 3 margin

**100%**

*Year-3 FTE required: 0.04*

# What has to be true

*Three conditions. If any fails, the path does not deliver.*

1

## **Ship the links**

One to two days. Booking.com, Viator, GetYourGuide, price shown on the card.

2

## **Reach 25% booking attach**

Of trips planned. Unmeasured today — this is Scorecard item 6.

3

## **Get volume from paths 1, 4 or 7**

This path cannot produce its own demand.

## VERDICT

**Best economics. Cheapest to start.  
Not a standalone path.**

Near-100% margin, no delivery cost, one to two days of work.

Switch it on early precisely because it costs nothing to run while volume builds underneath it.
